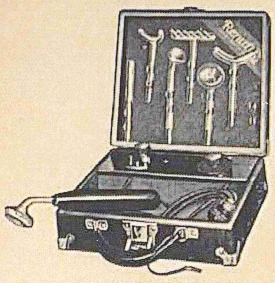
Improved Features

Embodied in "Renulife" High Frequency Generators are many improved features of design and construction affording added simplicity, convenience, durability and effectiveness to our instruments.



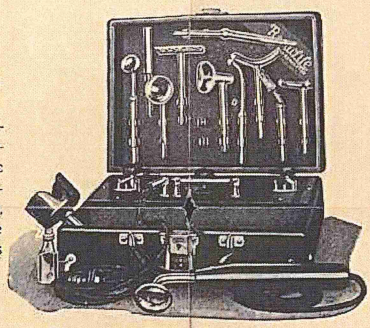
Model M $45.00

High Frequency Violet Ray Simply Explained

High Frequency electric current has an entirely different effect on the human body than the crude shocking results produced by ordinary current. There is no shock, pain or muscular contraction from "Renulife" application. This is due to the change which has been made in the current by conducting it through a series of coils and other units which make up the "Renulife" Generator. Ordinary lighting current is transformed and when applied to the human body the nerves are insensible to the electric waves because of their enormous rapidity of movement. The effect is pleasant and painless, yet penetrating and effective.

OPERATE FROM LIGHT SOCKET

"Renulife" High Frequency Generators operate from any electric light socket, on either direct or alternating current. Can be equipped for home electric light plants, as well as dry cells.



Model R $75.00

CURRENT EASILY CONTROLLED

After attaching the Generator to the electric light socket the strength of the high frequency current is controlled by an adjustment knob on each instrument. This makes possible the most effective treatment of various ailments.

Beneficial Effects

From the writings of the well-known authority, Noble M. Eberhart, M. D., Ph. D., D. C. L.

Increased oxidation and local nutrition.

Increased blood supply to a given area (Hyperemia). Strong sparks are caustic.

Increased Secretions. Locally germicidal.

Increased elimination of waste products.

Increased oxygenation, with the resultant benefit of more or less ozone being inhaled by the patient, and also probably carried directly into the tissues.

Stimulates or soothes according to length and character of application.

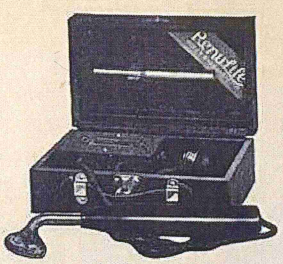
Sparks to spine increase arterial tension.

Promotes absorption of plastic exudates or adhesions.

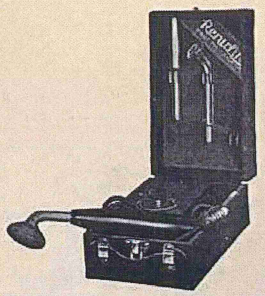
These effects of vacuum tube applications while essentially local, are not absolutely so. The current traverses the body in all directions from point of entry, but is most intense and pronounced at the latter point.

Quick Relief

The "Renulife" High Frequency (Violet Ray) Generator is effective as a means of bringing quick relief to local nerve pains, in reducing inflammation. It is at the same time a very splendid tonic--toning up the muscles and tissues without producing any strain. It induces relaxation--brings restful sleep.



Model H $12.50



Model X $22.50
